Fast Facts

MegaTouch™ Point of Sale

Feature Rich POS.

MegaTouch™ POS, conceived and designed for the hospitality industry, is packed with features that make your restaurant, retail shop, or bar operate at peak efficiency. Included are items such as full color screens with configurable item buttons, inventory tracking, time and attendance, splitting checks and an integrated credit card system.

Easy to use

User configurable item buttons and menus with color coding will help you organize your server input screens for maximum efficiency. Item modifiers and server text input assist the chef in making the order right the first time. Servers may split checks any number of ways including splitting items across multiple checks. You may also transfer checks to other servers and other outlets.

Features and Benefits

- Fully Integrated with Portfolio HMS™ or can be used as a Stand Alone
- Full reporting system (track sales by period, server, time of day, etc.)
- One-swipe credit card system built into the application. No need for an external credit card machine
- Integrated Back Office Accounting—Payables, Receivables, General Ledger
- Link an infinite number of menu screens
- Change item prices on the fly
- Link items to inventory system for automatic tracking and reduction of inventory
- Excellent application security to ensure maximum profitability.
- Track attendance and server tips
- Check storage and reproduction
- Variety of Equipment Vendor Options including PAR Technology and Radiant
